Equipment info:

All obstacles used meet NADAC specifications.

The trial you are entering is using slatted contacts. For many years slats have NOT been used in NADAC trials. The reasons for this is that with the lowered height of the NADAC A-frame, and the advent of rubber coated equipment, NADAC found that slats became entirely useless in the sport as the dogs had more than enough grip with the rubber coatings. NADAC was the first organization to use rubber contacts, and we feel that the removal of slats was the correct and logical next move. The reason we are allowing slats is to encourage clubs to try NADAC, without having to purchase a specific set of equipment for NADAC and to help struggling clubs who can't afford the NADAC spec contacts. The new generation of slats are not a danger to dogs like the old generation was, so while they are not needed for dogs competing in NADAC, it won't hurt to have them either. It should be noted that any Regional or Championship event that you attend with NADAC will be using non slatted contacts.

Directions:

Drive North (Hamakua) on Hwy 19 in Papa'ikou turn left @ Kimura general store, on Mill Road; Rt @ Stop Sign; stay on this road, pass the credit union and the old Sugar Mill Offices and drive almost exactly .2 mile from the stop sign. The first left you can take is a rough road with a hand written sign that says "Ho'ulu": turn left. Follow that road and **beware of the speed bumps they are terrible!** .4 mile from that turn, you will come to an intersection. Take a gradual left, not a sharp left. If you look up you will see two greenhouses with white roofs, to the left of where you are, that is the facility.

If you are coming from Hamakua, turn RT. at Kimura's. If you get lost call: 808-756-0519
